### Remarks:

Cowardin Code: PEM HGM: RIVERINE WT: RPWWD

Additional areas of PEM wetland abutting wetland W-A12-PFO were observed during 2019 Delineation Confirmation surveys. W-A12-PFO wetland was previously confirmed by USACE Norfolk District during 2015 field reviews, at which time the area now delineated as W-A12-PEM did not meet all 3 wetland criteria. The observation of wetland criteria in 2019 is likely due to tree/shrub clearing and other habitat alterations in the vicinity.

The wetland was revisited on 11/12/2019. Presence of wetland hydrology, hydrophytic vegetation, and hydric soils was confirmed using the USACE EMP Regional Supplement delineation methodology. A portion of the wetland was obstructed by a timbermat.
